Did you Know?

Over 560,000 family caregivers in South Carolina provide 610 million hours of 'free' services to their chronically ill, disabled or aged loved ones. If those services had to be replaced by even low-paid health care workers, the cost would be more than \$5.5 billion each year.

Caring for a frail or disabled elder can be very challenging, but there are resources that can make things a little easier.

For ideas, answers to caregiving questions, or help locating services

in your community, call the Family Caregiver Support Program, a free service for South Carolina's caregivers.
